TRAINING FOR RESILIENCE & SUCCESS

At TrainingAir, we believe pilots deserve the best training to prepare them for real-world airline operations. As an ATO run by pilots, for pilots, we specialise in delivering Type Rating and Instructor Training Courses on the Airbus A320, A330, A340, A350, and Boeing B737.

ONLY THE BEST IS GOOD ENOUGH

- **Course Material** – We produce all the training material for our Instructor Courses in-house, taking inspiration from the practises of leading airlines across the globe and integrating our own extensive expertise.
- **Experience and Dedication** – Our Instructor Tutors are specifically selected for their passion and extensive experience both as trainers, but also their experience in the field of Competency Based Training & Assessment. You will be learn from the best in the industry.

RELEVANT AND ENGAGING

- **Relevant Teaching Methods** – Learn to deliver briefings, training sessions and feedback using high level facilitation, referencing the EASA pilot core competencies and your own experiences.
- **Beyond the Basics** – Our Instructor Courses don't just teach you how to operate a simulator - it teaches you how to manage a variety of challenging training situations, delivered through immersive role-play scenarios.

DIVERSIFY AND DEVELOP YOUR EXPERTISE

- **Enriching** – Becoming an instructor enlarges your outlook on flying, and gives you the opportunity to share your experience with others.
- **Keeping Sharp** – Being an instructor naturally reinforces and develops your own resilience and technical expertise in a fun and engaging way.

FLEXIBLE & HIGH VALUE TRAINING

- **Flexible Training Schedules** – Our instructor course is designed to fit your pace - whether you prefer an accelerated path or a more phased process. We assess your specific experience and needs, so you only focus on the training you need.
- **Premium Training, Competitive Pricing** – No unnecessary admin, just top-tier instruction to ensure you're fully prepared for your instructor career. With our pay-as-you-go structure, you have the full flexibility to manage costs while investing in the best training for long-term success.
